Report on One-Day Seminar on IOT (Ideas of Tomorrow) (GIC Club activities)

A one-day seminar on “IOT (Ideas of Tomorrow)” was organized at SAL Engineering & Technical Institute, Ahmedabad on January 31st 2017. Prof. Arpit Patel from the Dept. of Electrical & Electronics Engineering gave a warm welcome to the participants and gave a brief introduction about the program to all.

Background:-

GIC has been designed to establish a close affinity between industries, entrepreneur and students to encourage research and development. So that at university level student is able to fulfill the needs of industries at national and international market.

Purpose:-

The main topics discussed in the seminar were:-

GTU INNOVATION COUNCIL

www.gtuinnovationcouncil.ac.in

- 1.Sparks behind IOT(Ideas of Tomorrow)
- 2.How GIC works
- 3.Active Participation in GIC
- 4.Environment & Work Space
- 5.Training & Guidance
- 6.Activities to be held in GIC
- 7.How GIC will be helpful in Final Year
- 8.Advantages of GIC...

Participants:

In this seminar near about 70 to 75 students from EEE and Computer branch participated.

Discussion:

First of all the discussion was about what is IOT and its importance. After that a brief discussion was on how GIC works to achieve the mentioned goals.

During the discussion, it has been seen that there was a positive impact of GIC activities and students were motivated about the importance of GIC and IOT. However, students of today's generation are aware about the changes in startup policy and are also having focus on innovation.

A brief discussion was there on the topics and some of the responses were discussed briefly.

The session was ended with a Question – Answer session as more number of students have involved. In that session, the queries of the students were discussed and their knowledge horizons were expanded to a much higher level.
