

## **Sensitisation and Capacity Building of student interns for GTU Innovation Council activities**

**Venue:** Block-6, GTU Innovation Council, Ahmedabad

**Date:** 21<sup>st</sup> January, 2018

### **ABOUT THE EVENT:**

The **New Intern Brief & Meeting** was conducted on the 21<sup>st</sup> January, 2018 in order to brief the new batch of interns about the work that is done at the GTU Innovation Council. The interns were filtered after a series of interviews and group discussions. The interns were introduced to different modules and were given specific details about different modules of GIC. The interns were introduced to the working model with the help of presentations and interactive seminar. The students were also introduced to the working policies of GIC. The interns were also introduced to the start ups which are successfully incubated under GIC and have managed to receive funding from across various nation as well as international organizations. Respected Tosha Ma'am & Tushar Sir were also part of the presentation where they gave their inputs about the internship programme and how these potential interns can be groomed into effective associates.

The associates discussed various ideas that they had encountered during their tenure and how they got into GIC in order to motivate the interns. The interns also shared their stories about their 'project-to-product' experience. We also had few interns who had previously worked with various firms and projects across the country. The associate also had the chance to interact with interns who had some internationally acclaimed achievements.

### **RECRUITED INTERNS:**

A total of 33 interns were selected after the recruitment process. The recruitment process consisted of an introduction by all the professors and associates. After that we had a questionnaire with the interns and finally we had a group discussion. Group discussions were conducted in a group of 10 interns. They were provided with different topics about politics, democracy, finance, etc.

In conclusion, the GTU innovation council managed to filter 33 of the best and the brightest interns who have the potential to successfully lead GIC into the new dawn of start up support and incubation. These interns are currently being trained by the all the professors and the associates so that they can lead the program into a greater success.
