About Gujarat Technological University

Gujarat Technological University (International Innovative University), commonly referred as *GTU*, is a statewide institution affiliating many engineering, pharmacy, and management colleges and varsities across the western Indian Districts of Gujarat. GTU has been working jointly with industries through GTU Innovation Sankuls (Every College is a Member of the Sankul in its area.). It has been working with the students through the GTU Innovation Clubs, Open Source Technology Clubs, Mobile & Wireless Technology Clubs, S4 Extension Centers etc. (Students at every College are required to have these active forums.)

About Cic3

Born in the heart of Gujarat, Maker Labs aims to foster innovation, research and entrepreneurship among students. This is the perfect platform for all you hackers, makers, developers, students to showcase your skills, ideas, passion and connect with the visionaries, industry experts who can mentor you and help transform your ideas/projects into realities

About Medical App.

Medical facility Mapping

Aim: To help patients to know health facility at the time they want. Helps travelers, new comers to the place etc.

Features of App:

- Geographical mapping of medical facilities-Doctors, diagnostics, pharmacy etc.
- Real-time availability update: time bound-status change green/Red etc
- Useful for patients
- At present targeting Gujarat
- Service provider can have basic listing free:
Name, Degree, Speciality, contact details, timings etc
- Detail listing can be charged.
- Credential verification can be asked
- Rating of health facility/testimonials etc

Medical health record management

Aim: to connect patient and doctor and make chronic disease management simplified.

Patient features:

- Link with doctor/pharmacy with access code-account creation
- Pill/medicine reminder
- Appointment reminder-doctor visit/test/vaccine etc
- Storing of basic medical records: height, weight, blood sugar etc.
- Detail storage options –can be paid
- Health tips as per disease
- Travel guide for available health facility
- Sharing of reports across platforms: doctor-lab etc
- E prescription transfer to pharmacy
