# WORKSHOP ON LARAVEL -A New popular PHP Framework

*In today's era, it is necessary for each Students to upgrade technical skills, as current technologies are changing rapidly.* By keeping this in mind, Gujarat Technological University's Open Source Technologies Club is organizing various workshops on latest technologies. Now, this time GTU OSTC organizes Laravel Workshop on 24th May 2015 and 31st May 2015.

Laravel is a free, open-source PHP web application framework, intended for the development of web applications following the model–view–controller (MVC) architectural pattern. Prominent Laravel features include its expressive syntax, a modular packaging system with a dedicated dependency manager, different ways for accessing relational databases, and various utilities that aid in application deployment and maintenance.
