Student Startup Support System (S4)

S4 Boot-camp on building startups in mobility and internet space

Date: 23rd March 2014

Time: 9:30 a.m. to 5:30 p.m.

Venue: S4 co creation space, GTU's Ahmedabad Campus (2nd floor, ACPC Building, LDCE campus)

Who can apply: Engineering students of EC, CE and IT branches, MBA students aspiring to set up start ups driven by technology and other GTU students working on developing apps or products, based on mobile technologies; preferably no more than 2 teams (heterogeneous blend of coders and others) per college

About the Workshop: S4 has been working to nurture student startups in action research mode and S4 has succeeded in sensitizing the whole of the GTU community about entrepreneurship. S4 has driven through various entrepreneurial processes from ideation workshops, idea fuel workshop where participants got extremely delighted after working in the loop of design thinking and leading up to venture design.

At this boot-camp, the students will be able to work with mentors and experts in executing the process. This boot-camp is a sequel to the workshop of 23rd February 2014 (Please see http://gtu.ac.in/Feb2014/Report-S4_wrkshp_on_building_startups_in_mobility_and_internet_space.pdf for the *workshop 23rd February 2014.*) During the weeks after 23rd February, each team must have developed the application (prototype). The bootcamp will provide to them an opportunity of showcasing the application to an interested audience.

We also invite interested applicants who did not attend earlier events on 23rd Feb but who have a prototype/ product by now with them. They are required to fill their details and stage in which they have their product by now.

REGISTRATION: Every interested student has to submit his/ her names in the given link:

https://docs.google.com/forms/d/1YusQ6qT6IHfx2iZkp_70vr8qbpHlhsize0zbvoltWKA/viewform

A confirmation mail and call will be given to participants before the event.

Last date of registration: 21st March 2014

Sohil Pipaliya (9033344206)

Divyesh Gamit (9724788007).

** This is a Boot Camp for students who are already working in Mobility and Internet Space. Projects must be at prototype Level. S4 will nurture good mobile applications and support them in shaping towards a start up. We will bring mentors and train each team during the boot camp. The team can come with their developing team members. We will help them design business model plans and canvases during these workshops. Some CEO's from mobile and IT industry have been invited and some of them may join to mentor the teams during the boot camp.*
